# So Cays His Statements Regarding the Land Laws in Ireland were Misreported —Bulgarian Insurpents Shot.

LONDON, March 11 .- Gen. Buller declares that the version of his evidence before the Land Commission, published yesterday, was untrue. He denies that he made any state-ment about coercion. The subject, he says, was not even indirectly alluded to while he was before the Commission.

A scrutiny of the official report issued to-day shows that the mistake arose from the blend-ing of a passage in Commissioner Knipe's report, condomning further coercive legislation, with a part of Gon. Buller's evidence. The

story, and tells it gracefully. It is the highest port, condomning further coercive logislation, with a part of Gen. Buller's evidence. The Conservatives assert that the Parnellites purposely diffused the error throughout the country to confuse public opinion upon Gen. Buller's genuine evidence.

The Pall Mall Gazelle donios that yesterday's statement was a garbled version. The discrepancy, it says, was a more misprint. It is applied to the Buller and that in certain localities in Kerry, Clare, and Cork an organized stand was boing made against the payment of existing routs, but that routs were generally fairly well paid. A majority of the tonants, he said, were anxious to pay, utwanted a rousenable allowance, while a great the payment of existing routs and the strain of the country. The people, he said, had synapathy with the National League bocause they thought it was their selvation. The bulk of the tennits had fold him that the reducing of ventual the League was established. The Parallelites and Glastonians roly upon Gen. Buller's evictions and the strain of the country. The production of land legislation. The Grovenment was propage of evictions and the strain of the country. The production of land legislation the country of the country. The production of land legislation the covernment was propaged to evictions and the exercise of ment of existing rents, but that rents were generally fairly well paid. A majority of the tenants, he said, were anxious to pay, but wanted a reasonable allowance, while a great many others, who did not require any allowance, would pay if they dared. He feared intindication was rampant in the country. The people, he said, had sympathy with the National League because they thought it was their salvation. The bulk of the tenants had told him that the reducing of rents and the staying of evictions were directly due to the operations of the League, They believed that nobedy did anything for the tenants until the League was established. He said it was no longer possible to enforce legal obligations it, that part of the country.

Gen. Buller further said that the act of 1881, which was intended to remedy this state of affairs, had been a failure. He was not prepared to say whether the failure was due to the opposition of the League or to the fail in prices.

The Parnellites and Gladstonians roly upon Gen. Buller's evidence to support their demand for the stoppage of evictions and the early production of land legislation. The Government was prepared to night to carry out a plan for a continuous sitting of the House of Commons until the first rule of procedure should be settled. The Speaker, being privately informed of this fact, declared that he was unable at present to assist in the stoppage of debate, and the Government was accordingly obliged to abandon its plan.

Serious differences on the Irish question have arisen among the Conservatives. Fressure has been put upon the Government not to introduce a new land bill, but to legislate in the direction of land purchase only.

The Prince of Wales will Enter a Yacht in the 1,000 Guineas Race.

LONDON, March 11,-The Prince of Wales presided to-day at the annual meeting of the Royal Thames Yacht Club. The Secretary of the club announced that the money for the 1,000 guineas jublice prize had already been subscribed in full by ninety members of the club, and that plenty of other funds were coming in to make up the several prizes which the club desired to offer for additional races during the jubilee season.

June 14 has been fixed as the date for starting the 1,000 guineas race, and the course laid out is from the Nore northward up the east coast of England, around Scotland and Ireland to Dover. The complaint made by an American newspaper that the course includes narrow channels is unfounded, the only one in the course being the English Channel, which surely is wide enough for all the purposes of the race. The commanders of yachts in the race, the country of the course they please, so long as they keep the mainland on their port side. The conditions will include time allowance according to tonnage on a sliding scale.

The Prince of Wales cordially approved the plan of the race, and expressed delight at being permitted to cooperate in the jubilee programme of the club. He promised to act as a competitor. The meeting was attended by all the leading yachtsmen of Great Britain. ing the 1,000 guineas race, and the course laid

### AMUSEMENTS.

The Production of "Connella." The production of Leo Debiles's two-act ballet "Coppelia" by the corps de ballat of the National Opera Company attracted a large audience to the Metropolitan Opera House last night, and one which from a social point of view was as brilliant as the spectacle on the stage. It was natural that the event should

have awakened such lively interest, for in those operas in which the National Opera Company's corps de ballet has had a chance to disport itself this season it has left the impres sion of an admirably trained and artistically costumed body of dancers who are young.

pretty, and shapely.

"Coppella," like all French ballets, tells a story, and tells it gracefully. It is the highest form which pantomime has reached in the course of evolution. In "Coppella" Steanhilds.

# Burke and Glover Trying to Fight.

CHICAGO, March 11 .- Jack Burke, "the Irish ad," and Frank Glover were expected to meet this af-ternoon to arrange a fight to a finish under Marquis of Queenaborry rules, for a purse of \$5,000 and stakes of Queensherry rules, for a purse of \$5,000 and stakes of \$5,000. If a fight is agreed on, the attendance will be \$50 each. Glover seems auxious to meet Burke in a bona fide fight, and has conceded everything to him. His \$250 deposited in the Secretar Journal had not been covered by Burke up to 2 this afternoon, and there seems to be an impression surcoad that Hurke is not auxious for the fight. To hight it is learned that strikes were not signed. It is said that Hurke has de osited \$1,000 with Mr. Curtis A. Dunn sar forfest to fight Glover to a finish for \$5,000 a side and a purse of \$5,000. Queensbury rules, the fight to be with skin gloves, and to take place outside the State of Hisnots, within ten or twelve weeks from the date of signing articles, the winner to take all the money. The forfeit will remain open for one week.

FRIDAY, March 11. There was a further decrease in the volume of speculation on the Stock Exchange to-day. The market apparently was returned to the hands of the local traders, and they were disposed to limit their ventures. The street is doubtless somewhat disappointed at the failure of the proposed Baltimore and Ohio deal. There is no occasion for this feeling, however, as the property is still in the market, and its transfer to those who can handle it to the best advantage is probable. In fact, only those who are capable of bringing the company into harmony with the other larger in terests that are affected by its policy are equal to a deal of the magnitude that has been proposed. It is useless to predict when this will be done, nor is the public likely to be advised, as they progress, of all the details of the negotiations that may be necessary to such

a result. The reverses of yesterday do not seem to have discouraged Mr. Sully, for he was at work to-day as indefatigable as ever, seeking, but in vain, to secure from Mr. Garrett an exten-sion of his option or contract to sell the stock. The situation seems to be that Mr. Garrett has offered his stock at \$200 per share. and as yet it has not been taken. Now that the control of his road is known to be in the market, there ought to be no delay in his getting a responsible bid for it. So far as Mr. Sully is concerned, we believe that he had the ability to conceive a great idea, but not to grasp it in its actuality, and that the opportunities of yesterday cannot be realized to-day. In other words, Mr. Sully's chance has escaped him, and cannot be recovered. A competitor

In other words, Mr. Sully's chance has escaped him, and cannot be recovered. A competitor long dormant and vastly more powerful than he and his associates has intervened, and so far as the Baltimore and Ohio is concerned he is no more. He made a brilliant and audacious dash at a splendid prize, but we think Alfred Sully is beaten.

Bo far as the market is concerned it is likely to undergo a number of fluctuations before the desirable end is reached. The indications today were that the situation for the moment had encouraged the bears. A weak spot was found in Richmond Terminal, in which the digestive process is still going on, and Lackawanna continued to reflect the uneasiness that has been created by the proceedings against the Morris and Essex Company in the New Jersey Legislature. The early dealings were at full figures in response to a better market for American securities in London, and some further improvement was made under the lead of Western Union, which was run up 15 went, but reacted at the close to the final figures of yesteriay. New England and Consolidated Gas were exceptionally strong, and Reading showed a good deal of firmness. Rumors of a deal with the other New England roads were revived in connection with the movement in New England. The market for stocks other than those mentioned was very dull. Money was rafter more active toward the close of business, and a flurry to 7 went, align's prices.

Official announcements that Mr. Armour's lard manufacturing concern had concluded a three years' contract for its oil with the American Cabot as starp improvement in the certificates of that concern, as this action deprives the contemplated opposition of influential backing. The Trust certificates soid in the Unified Department at 51½ to 54½, and closed 2½ went, higher than yesterday at 53½. American Cabole stock was in demand in connection with the scheme for funding the guarantoed stocks of the Western.

# A DRUGGIST'S MISTAKE.

A Sick Man's Wife Disregards the Drug glot's Advice and so Saves the Life of Her Husband,

of Rier Rusband.

I am a wood carver by trade, and it is out of my like to write letters; but my wife thought it was no more than right that I should let you know what your remedy has done for me, and I think so, too. And even when I have said all I can say, I fear I shall fall short of giving you an impression of the facts as they really are.

I live in East 157th street, west of Third avenue, and have lived there for about twenty-three years, where I own real seatste. Up to the time I am about to mention, I had been a strong, well man. There was always more or less malaria in the neighborhood, but I had not personally suffered from it. It was in 1880 I had my first attack. It came on as such attacks commonly do, with headaches, loss of appetite and ambition, chilly sensations, with slight fever afterward, a disposition to yawnand stretch, and so forth. I was employed at that time at Killian Brothers', furniture manufacturers, in West 32d street. I hoped the attack would wear off, but as it didn't I consulted a well-known and able physician in Morrisania, who gave me quinine and told me what to do. I can sum up the first four and a half or five years of my experience in a few words. Occasionally I was

do. I can sum up the first four and a half or five years of my experience in a few words. Occasionally I was laid up for a day or two, but on the whole I stuck to my work. I kept taking quinine, in larger doses from year to year, and kept on getting weaker and worse, slowly but surely, all the time. My trouble was now well defined, and its symptoms were steady and regular. I had dumb ague in its worst form, and it was grinding me down in spite of all that I could do or the doctors could be the doctors could be the doctors could be the doctors of the docto down in spite of all that I could do or the doctors could do. It held me in a grip like fire in a burning coal mine. The poison had gone all through and over me, and nothing was able to touch it. I was fast losing flesh and strength, and about March, 1884. I knocked off work entirely and went home to be down sick, and to die, for all I could tell.

At this point begins a part of my experience that I had

rather die than go through again. It lasted less than two years, but they seemed like a hundred. At the best I can give you only a rough picture of it. I ran down so rapidly that I soon became unable to walk any distance. rapidly that I soon became unable to walk any distance.
Later I went from room to room in my own house only
by friends holding me up by each arm. The does of
quinine were increased until I often took thirty grains at
a dose. The effects of this tremendous stimulation was
to make me nearly wild. It broke my sleep all up, and
I often walked the floor, or staggered about it, all night
long, scarcely able to bear any noises or even human
speech. My temper was extremely irritable. As to food,
one of my little children would eat more in a meal than
I could in a day. I would order food and then turn from
it in disgust. I lived on quinine and other stimulants
and on myself. like a bear in winter. The quinne set
my head in a whirl, and the liquor—given as a medicine
—made my stomach so sick I could not tolerate it.
One pleasant summer day, being a little better, I went
on a visit to my mother in Astoria. Long Island, intendling to return at night. There I was so overcome by

on a visit to my mother in Astoria. Long Island, intending to return at night. There I was so overcome by
the exertion in my weak state that my relatives thought
I would die. It was several days before I got strength to
return. I had my sick week and my comparatively well
week, but it was half-past eleven o'clock every morning
before my hands would have any feeling of warmth in
them, and regularly at five in the afternoon they became

cold as stones again.

From 175 pounds (my proper weight) I ran down to 97 pounds—the weight of a light girl—and was scarcely petter than a skeleton.

If anybody had taken a hatchet and knocked me down and killed me, I should have been better off.

During the latter part of this period, early in 1898, my physician said: "Miller, there's no use in my taking any

more money of you: I can't do you any good. I might pour pounds of quinine down your throat, and it wouldn't help you." On the strength of this I gave up the use of quinine altogether, and made up my mind to do nothing more and

Three weeks afterward—about the last of May—my wife saw an advertisement of Kaskine, the new quinins, in a New York paper. She told me of it. I said; "Stuff and nonsense! it can't do me any good." But she went to a druggist's, nevertheless, to get it. The druggist advised her against Kaskine; he said it was nothing but sugar; that she ought not to throw away her money on it, &c. He said he didn't keep it, but could get it if she insisted on having it. Turning away in disgust, my wife spoke to our neighbor, Mr. A. G. Hegewald, who got her a bottle at a drug store in 6th av.

Almost against my will, and without the least faith, I began taking it. In one week I was better. I began to sleep. I stopped "seeing ghosts." I began to have an appetite and to gain strength. This was now the lat of June, 188d, and by the end of that month I was back at my bench at C. P. Smith's scroll sawing factory in 116th st., where I work now.

Since then I have never lost a day from sickness. Taking Kaskine only, about forty pellets in four equal

old weight—173 pounds—and my old strength to labor. I am an astoniahment to myself and to my friends, and if Kaskine did not do this I don't know what did. The only greater thing it could do would be to bring a dead man to life.

PREDERICK A. MILLER,

P. 8.—For the absolute truth of the above statement I refer to the following gentlemen, who are personally acquainted with the facts: Mr. Alexander Weir, 620 156th st.; Mr. George Seaman, 158th st. and Courtlandt av.; Mr. A. Moebus, 154th st. and Courtlandt av.; Mr. John Lunny. 630 East 158th st.; Mr. John Renshaw, 124 125th st., and many others. I will also reply to letters of inquiry.

wrong. If this afflicted man had not disregarded the druggist's advice and sent elsewhere for the remedy he would, without doubt, have been in his grave. Touching the slanderous declaration of the druggist that Kaskin was nothing but sugar, we append a letter written by

THE KASKINE COMPANY. Gentlemen: By chemical analysis I have detected the presence of four distinct substances, all of which possess antisymotic and antiseptic properties.

The percentage of these constituents is small, yet quite sufficient, when Kaskins is taken regularly according to the directions, to so influence the blood and the system as to render the same unfavorable to the growth, development or presence of the lower organisms which are the cause of numerous diseases the system is subject to. The proper treatment for any disease is one directed toward removing the cause, and this should be done gradually. Knowing the nature of the medicinal cor ituents of Kaskine, I do not hesitate to recommend Analytical and Consulting Chemist,

# Purity and Beauty of the Skin

CUTICURA REMEDIES in their marvellous properties of cleansing, purifying, and beautifying the skin, and in curing torturing, disfiguring, itching, scaly, and pimply diseases of the skin, scalp, and blood, with loss of hair from infancy to age.

CUTICURA, the great skin cure, and CUTICURA BOAP, an exquisite skin beautifier, prepared from it, externally, and CUTICURA RESOLVENT, the new blood purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula.

I have had a ringworm humor, got at the barber's, for six years, which spread all over my ears, face, and neck, and which itched and irritated me a great deal. I have used many remedies, by advice of physicians, without benefit. Your CUTICURA REMEDIES have entirely cured me, taking every bit of humor off my face, and leaving it as smooth as a dollar. I thank you again for the help it has been to me. GEORGE W. BROWN, Mason,
